

Majority Sleeps, Minority Reaps

—o— Continued from page 1 —o—

Why are not the leaders of this minority group investigated by a Congressional Committee for the part they played in originating, financing, and keeping in operation the World Communist movement, especially in view of the fact that a number of official documents exist, such as the Overman Report, the Sisson Report, The British White Paper, statements of the ambassadors from over the world who were in Russia at the time of the Revolution, in addition to their own verifying the fact that they launched and financed communism.

The majority in the August Senate body failed to ratify the Bricker Amendment a couple of times, whereas by their oath of office they were obligated to uphold the Federal Constitution.

Our State Department practically demanded that Finland submit to the Soviet government. The United States approved the forceful seizure of a large part of Poland. Franco of Spain helped us materially during the war and returned over one thousand pilots. Now, the liberals in Washington are urging the overthrow of the Spanish regime, even though he expelled the communists. We were the first nation in all history to drop atomic bombs on innocent civilians. What a cross and precedent to bear. Actually, it was unnecessary and uncalled for, as the war had already been won by us. It was unnecessary to bring Russia into the war five days before we had defeated Japan, just so they could take Manchuria and participate in the Peace negotiations. Our request for the return of our ships which we leased to the Soviet government for a dollar was ignored; likewise, our request for an accounting of Lend Lease. By what force, coercion, or power were we influenced to recognize Russia in 1933? We dealt wholeheartedly with the Soviet regime as an ally, whereas we had twenty years of treason. This nation has gone down in history as never before. In the generation of nations at war, never has there been a case similar to ours, whereby the victor received so little, after sacrificing so much. By means of propaganda media owned and controlled by the minority group who control the Federal government, we are permitted to remain in the United Nations, as well as allowing the United Nations in the United States, knowing that it is infested with spies and people who have hatred for our beloved country. Many politicians and government officials withhold the truth from us for fear they may not continue in office. Is that Americanism? Is that the reason why Congress is afraid to tackle the money question? Why did they not censure Henry Morgenthau, Jr. for promoting communist Harry Dexter White, the man who gave our money-plates to Russia, and advocated that the bulwark of Europe (Germany) be demilitarized and de-industrialized and cut up into small farms so as to make peons of the most nationalistic nation in the world? Why did we not censure Dean Acheson, who promoted and protected convicted perjurer Alger Hiss? Why did we not censure the man who allowed Lattimore and Glasser to change China from friend to foe? Why did we not censure our Defense Secretary, who knew of the coming events at Pearl Harbor but did nothing about it? Why did we not censure the man who engineered the United Nations Charter as well as the "giveaway" programs at Yalta and Potsdam, after we had established ourselves as the outstanding, formidable power because of decisive victories in the past? Why did we not censure the person who engaged this nation in one of our bloodiest wars without an Act of Congress, then recalled the Commanding General? Why did we not censure the War Department for refusal to win the Korean war according to the testimony of four Generals, viz., MacArthur, Clark, Wedemeyer and Van Fleet? Why did we not censure the War Department for authorizing an American General to sign a document with Montgomery of Great Britain,

Picard of France, and a Russian General, that sent back to Russia, for slave labor, four million Germans and five million (anti-communist) Russians, who surrendered to the American Army for protection? Why did we not censure the individual who promoted Peress? Why does not the Congress of the United States investigate the minority group who are in control of the Federal government for making the Soviet Union the scourge of the universe? Many of our

solons in both the upper and lower Houses of the Congress know who they are, but they are afraid to mention them for personal reasons.

It is a strange world, when we consider that the very nations—Germany and Japan—that just a few years ago we gave thousands of our youngsters and billions of borrowed money to defeat, are now actually rearming to protect us from our former allies, the Russians and the Chinese.

WASHINGTON

—District of Corruption

By Hubert H. Heath

A mere thirty years ago our national capital was known as the cleanest, most law-abiding national capital on earth. Thirty years of planned misgovernment by the bipartisan One Worlders has changed all that. Today Washington has been made a foul blot on the face of Christian civilization, where rape, robbery and murder are the order of the day.

Congress, with duly delegated power to impeach and remove any civil officer, has ample power to force a return to lawful, Constitutional government; but the men who dominate that once greatest of legislative bodies are not doing, nor are they going to do one thing about it. Most of them are far too busy feathering their own nest.

The late FDR, Oracle of the Bipartisan One World New Dealers, told us "Don't think things 'just happen.' They don't. They are planned that way and don't let anybody tell you differently." That he knew the score and knew the plotters and planners of One World military dictatorship is beyond question.

These lines are being recorded more in sadness than in anger. All mankind should be saddened and shamed by what goes on in our capital today. That there are intelligent and patriotic men in that Congress no one of sound mind will deny, but they are far too few and are continually frustrated by the other sort.

No sane person would wish to undermine and destroy Christian civilization that has brought us to the very zenith of human achievement. No sane man ever wanted to rule over the earth and no mere man ever lived competent to do so. Greed for gold and lust for power to rule over others are the greatest of all destroyers on minds, morals and souls of men.

That a world group of power-mad, greed-mad men today dream of ruling over a mongrelized, chemically controlled human mass is too evident to deny. Spokesmen for that sinister world group have stated these

facts, so assured are they that all-power is now within their grasp.

That world group and its spokesmen stated quite some while back they were going to make Washington a show place of what racial relations should be. That they are pleased with what they have done in our national capital is made evident by the fact they are going all-out to force the same state of affairs on the rest of the nation.

The all but total apostasy in the churches is the saddest factor in the plunge downward of time's greatest and finest civilization. False leaders in our churches are going along with the mongrelization program as well as the centralization of all power in the hands of the world group aspirants to the place God alone is entitled to. God pity mankind in these darkening days as the powers of Darkness take over.

OUR NATION'S "WITCH HUNT"

THE U. S.'s GREATEST POINT OF PERIL
—WASHINGTON

From Houston (Tex.) Press, Feb. 7, 1964

By Henry J. Taylor

On Feb. 27, 1963—more than 11 long and decisive months ago, this column detailed Castro's push into Panama and said "his receiving agent, protector and cover there is the famous Panamanian Communist, Thelma King—vicious, relentless, competent."

On Jan. 10, 1964 Thelma King personally led 1000 rioters to the National Guard Headquarters demanding weapons. Yet our government says the Canal events were a surprise, surprise, surprise.

At least 70 known Castroites spearheaded the attack, of which about 40 recently visited Cuba, the Soviet Union and Red China.

Among them, Cuba-trained Floyd Britton led the march on the Balboa High School and subsequent shooting of our ambushed troops. This is the same man, no less, who instigated the demonstrations against our
